

PATIENT HISTORY:

PRE OP DIAGNOSIS: CA LEFT BREAST

POST OP DIAGNOSIS: SAME

PROCEDURE: LEFT TOTAL MASTECTOMY, AXILLARY DISSECTION

100-0-3
Adenocarcinoma, infiltrating duct 8500/3
Site Code: breast, lower quadrant
C50.8
12/15/11
lw

ADDENDA:

ESTROGEN/PROGESTERONE REPORT

Using appropriate positive and negative controls, the test for the presence of these hormone receptor proteins is performed by the immunoperoxidase method, and reported according to the consensus statement on adjuvant therapy for breast cancer, on ~~breast cancer~~. A positive ER or PR tumor shows any nuclear immunostaining, and is semiquantitated as indicated below.

Result	Semiquantitative Statement
ER <u>negative</u>	Percent cells staining as: (0 100%)
PR <u>negative</u>	Percent cells staining as: (0 100%)

HER-2/NEU DAKO HERCEPT: A WEAK TO MODERATE COMPLETE MEMBRANE STAINING IS OBSERVED IN MORE THAN 10% OF THE TUMOR CELLS. HER-2/NEU IS INTERPRETED AS WEAKLY POSITIVE (SCORE 2+).

Her-2/Neu FISH was ordered.

The Her-2/neu and estrogen assays were performed with FDA approved methods. The progesterone receptor immunoperoxidase test used in this case has been developed and the performance characteristics determined by the Department of Pathology at the U.S. Food and Drug Administration. They have not been cleared or approved by

FINAL DIAGNOSIS:

LEFT MODIFIED RADICAL MASTECTOMY (TOTAL) AND AXILLARY DISSECTION:

PART 1: LEFT AXILLARY CONTENTS:
TWO OF TWENTY-FIVE (2/25) LYMPH NODES WITH METASTATIC POORLY DIFFERENTIATED DUCTAL CARCINOMA OF BREAST

PART 2: LEFT BREAST:

- A) INFILTRATING POORLY DIFFERENTIATED DUCTAL ADENOCARCINOMA, NOTTINGHAM SCORE 8/9 (NUCLEI 3, TUBULE 2, MITOSIS 3), MEASURING 3.0 BY 2.5 BY 0.7 CM, LOCATED IN THE LOWER OUTER AND LOWER INNER QUADRANT (CROSS REFER
- B) TUMOR ASSOCIATED MICROCALCIFICATIONIS
- C) ALL MARGINS FREE OF TUMOR
- D) NIPPLE AND SKIN FREE OF TUMOR
- E) PROLIFERATIVE FIBROCYSTIC CHANGES WITH DUCT ECTASIA, RADIAL SCAR AND SCLEROSING ADENOSIS

COMMENT:

ER/PR AND Her-2/neu will be performed on "2D" and a report will follow.
